**PRE-APPEAL BRIEF REQUEST FOR REVIEW**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Office Action dated 05/28/2008, Applicants request review of the final rejection in the above-identified application. No amendments are being filed with this request. This request is being filed with a notice of appeal. The review is requested for the reasons stated in the following brief.

**Remarks**

The Office Action dated 05/28/2008 recorded the following status of claims in this application. Claims 1, 3-6, and 8-12 were pending in the application. Claims 1 and 3 - 12 were listed as rejected. The Applicants note that Claim 7 was canceled and not rejected.

**Claim Rejections – 35 U.S.C. §103(a) – [J.D. Muhs, “Design and Analysis of Hybrid Solar Lighting and Full-Spectrum Solar Energy Systems,” Solar 2000, July 16-21, American Solar Energy Society] in view of U.S. Patent 5,271,079 to Levinson]**

Claims 1, 3, 5, 6, 9, and 11 were rejected under 35 U.S.C. §103(a) as being rendered obvious by J.D. Muhs, “Design and Analysis of Hybrid Solar Lighting and Full-Spectrum Solar Energy Systems,” Solar 2000, July 16-21, American Solar Energy Society” (hereinafter “Muhs Reference”) in view of U.S. Patent 5,271,079 to Levinson (hereinafter “Levinson”)

Independent Claims 1 and 5 are directed toward a hybrid solar energy distribution system and a hybrid collector system, respectively. Each of these independent claims include “at least one fiber distribution panel.” Figure 8 depicts a fiber distribution panel 124 and Paragraph [0026] describes a fiber distribution panel as follows: “[a] centrally located fiber distribution panel can serve as a “plug and play” source to feed multiple fixtures with sunlight.” The Office Action points to Figure 6b in the Muhs Reference as disclosing a fiber distribution panel. The Applicants concurrently submit a declaration from J. D. Muhs declaring the substance of Figure 6b in the Muhs Reference and attesting to the fact that a fiber distribution panel is not depicted in Figure 6b or elsewhere in the Reference. The Office Action does not assert that Levinson fills that shortcoming in Muhs, so consequently all of the limitations of Claims 1 and 5 are not taught or disclosed in the combined references. Since the combined references do not teach or disclose all of the elements of the claimed invention, the Applicants respectfully assert that Claims 1 and 5 are not rendered obvious by Muhs in view of Levinson, and the Applicants request that the rejection of Claims 1 and 5 as being obvious from Muhs in view of Levinson be withdrawn, and that Claims 1 and 5 be allowed.

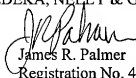

In the event this response is not timely filed, Applicant(s) hereby petition for the appropriate extension of time and request that the fee for the extension along with any other fees which may be due with respect to this paper be charged to our Deposit Account No. 12-2355.

The undersigned is the agent of record and is the Applicants' representative.

Respectfully submitted,

LUEDEKA, NEELY & GRAHAM, P.C.
